## PROJECTS

### **Replica Reaper C++**

**January 2025 - May 2025**

- Worked in a team for my software engineering 2 class
- Implemented C++ with QT to create an application that can detect duplicate files
- Added a real time duplicate detection that gives instant feedback when a file is downloaded

### **Angle Anglers Unity, C#, HTML, CSS**

**October 2024 - December 2024**

- Worked in a team for my software engineering class
- Planned deadlines ensuring everything got done on time
- Used many skills as we had to create a website along with the game

### **ThinkDock JavaScript, HTML, CSS**

**July 2025 - August 2025**

- Worked in a team for my GUI 2 class
- Divided work up among the 4 of us as I was the project manager
- Deployed web app through Google Firebase

## WORK EXPERIENCE

### **Order Picker / Customer Service, Amerasport - Holliston, MA**

**May 2022 - August 2023**

- Flawlessly picked and packed orders in warehouse
- Helped with customer service: 1 on 1 interactions with customers about products
- Satisfied 50+ customers increasing the company's profits

### **Grocery Clerk, Market Basket - Bellingham, MA**

**December 2018 - January 2022**

- Memorized over 50 different produce codes
- Stocked shelves and worked with managers to keep the store in tip top shape
- Directed over 1000 lost customers to the correct aisle

## LEADERSHIP AND INVOLVEMENT

### **UML Club Ultimate Frisbee**

**September 2021 - May 2025**

- Dedicated 6+ hours a week for practices, film sessions, and tournaments
- Managed the team's social media account for 2.5 years

### **Puerto Rico community service trip**

**Winter 2020**

- Transformed a plot of land where a house burned down into a park
- Renovated a weathered down school after it got destroyed by a hurricane
